Primary students standing in front of the new temporary classrooms which will shelter them from the elements and allow them to study while funding for the permanent school buildings are raised and built.

Thanks to our partners with ONE-less ministries, 127 World Wide, the team in May, and the miracles only God performs, a temporary school structure (five classrooms) was completed this month! There are now three nursery classes and four primary classes. The nursery block is currently under a papyrus structure until \$10,000 is raised to build another five classroom, temporary block.

School is in full swing even though we do not have enough desks and chairs. It costs about \$1,400 to furnish one classroom with twenty desks.

The students are looking so smart in their uniforms, provided by sponsorship funding, and they are excited to be continuing their education.

Nursery students feeling the sense of hope that having an education brings.

Now that the fourth pod house is no longer being used for classrooms, construction on it has begun again. Approximately \$2,000 is still needed for the final touches and furnishing before a fourth house Mom and eight more children can occupy it.

Thank you friends, sponsors, donors and prayer warriors. Lives are being changed through your support and the grace of God.
